

John's Casting Slip

John's Casting Slip is a pure white casting clay made from a well balanced formula for plasticity, minimum shrinkage, very good greenware strength, and easy casting ability. The unfired color is a light grey; fired, the bisque is a pure white. The most used firing range is cone 06 to cone 02. Any low fire glaze will fit this body without crawling or crazing. John's Casting Slip conforms to ASTM-D4236.

John's Slip is packaged in 2-gallon plastic bags, two gallons per box.

1 to 8 gallons.....	\$3.75 per gallon
10 to 18 gallons.....	\$3.05 per gallon
20 to 48 gallons.....	\$2.90 per gallon
50 to 99 gallons.....	\$2.70 per gallon
100 to 498 gallons.....	\$2.50 per gallon
500 to 998 gallons.....	\$2.40 per gallon

Terra-Cotta & Stoneware Slip

TERRA-COTTA (red slip) has the normal low fire range of cone 06-02 and fires orange at 04. The color is deeper and richer at cone 02.

STONEWARE is generally buff in color, is vitreous at cone 6 and is suitable for use in microwaves and dishwashers.

1 to 9 gallons.....	5.50 per gallon
10 to 19 gallons.....	5.00 per gallon
20 to 49 gallons.....	4.75 per gallon
50 gallons and over.....	4.50 per gallon

It is not necessary to take your entire John's Slip purchase at one time. Many customers purchase 100 or more gallons of slip in order to take advantage of the quantity price, but take smaller amounts as they need them. We keep accurate records of slip received.
